# **HEI involvement**

Swiss HEI are encouraged to partner up with VSS-UNES-USU for a pilot project of Students at Risk. The goal is to offer Students, who are denied their basic right to education in their country due to activism or discrimination, a safe space at Swiss HEIs.

A HEI can freely choose how they would like to participate and what they are willing and capable to offer Students at Risk. The workload for a small/big HEI is expected to be about 0-3 additional international students per year/semester.
